WHAT PEOPLE ARE SAYING ABOUT FREE ARTS

"I am deeply impressed by the positive impact that Free Arts has on our families and children. We have noticed participation and interaction levels much higher, and great feedback regarding the classes, directly from our families and children. Your commitment to empowering artists, nurturing creativity, and making the arts accessible to diverse audiences is truly inspiring. It has been an honor to align our efforts with both of our organization's mission and values."

-Aviva Family and Children's Services

"Free Arts currently works one-on-one with the children in the court. This joint venture has allowed children going through emotional traumas free expressions through their art. This healing process is so important to help children improve their outlook and provide a different lens to view life's circumstances. Our program has benefited greatly from the opportunities afforded by the Free Arts organization. We THANK YOU and support this wonderful program."

-Edmund D. Edelman Children's Court - Shelter Care

"We are very appreciative of the time and dedication Free Arts puts into conducting the activities, step-by-step with our patients. An outlet such as expression through art creates an atmosphere for our pediatric patients to feel a sense of control and reduce stress. Art also provides a variety of opportunities for self-expression when one may not know how to put their feelings into words. Bringing the Free Arts Program to our hospital has had a positive impact in providing quality patient care and building rapport through interactive art and trivia. We look forward to continuing future collaborations with the Free Arts program."
